DSS Social Media Audit

Oct 14, 2026 · @Arham Saeed

The problem isn't how much DSS posts. All four accounts hide the certifications, show different locations, and reuse the same slogan graphics.

At a glance

Account	Followers	Reach	Main problem	Fix order
Instagram	366	Not measured	Profile scores 38/100	1
Facebook	5.1K	Median 416 views/reel	99.7% of views came from 3 reels	2
Pinterest	6	40.2K monthly views	Website clicks unknown	3
TikTok	2	~236 views/post	No post got past the first test batch	4

Problems on every account

Problem	Fix
ISO 13485:2016, CE, UKCA missing from every bio	Add them to every bio
Three locations: Texas (IG), Karachi (FB), "across the USA" (Pinterest)	One story: made in Sialkot/Karachi, shipped worldwide
Same slogan graphics everywhere ("Precision..." on ~10 covers)	Name the instrument and what it's for
Silent videos with no hook	Person on camera, one specific line in the first 2 seconds
"Supplier" instead of "manufacturer" (FB, Pinterest)	Say "we make" everywhere

Problems by account

Account	Problem	Fix
Instagram	Name field is the name only	"DSS | Surgical Instruments"
Instagram	No highlights; all 3 pins do the same job	5 highlights; pin proof, offer, intro
Instagram	Link goes to home page; no WhatsApp button	WhatsApp catalogue link + contact button
Instagram	No stories	One story a day
Facebook	Unknown if the top 3 reels (111K-543K) were boosted	Check Ads Manager
Facebook	Other 18 reels flat at 266-813 views	Show instruments where they're used, person on camera
Facebook	"Trusted in 200+ Hospitals" has no proof on file	Confirm it or remove the reel
TikTok	All 6 posts stuck at 219-245 views	Native vertical video only
TikTok	Reposts, incl. an Instagram screenshot	Delete reposts
TikTok	Handle has an extra "y"	Take the handle without it, if free
Pinterest	142 pins on a board named "Social"	Split into searchable boards
Pinterest	Pins show no product name or product link	One pin per instrument, linked to its page
Pinterest	Bio says "across the USA", has a typo and unproven claims	New bio below

Why reach is low, and how to get it

Why no reach	Evidence	How to get reach
No hook in the first 2 seconds	Most reels are silent footage; old hooks score 35-48 (WEAK)	Open with one spoken line + on-screen text (see Hooks)
Nothing makes people stop	TikTok: all 6 posts within 219-245 views	Person on camera, instrument in use, motion in frame 1

Why no reach	Evidence	How to get reach
Same graphics on every platform	"Precision..." on ~10 covers; an IG screenshot on TikTok	Make each post for its platform; drop slogans
Search can't find the posts	No product names or search phrases in pins, covers, bios	Put keywords in captions, pin titles, bios (see Hashtags)
No reason to comment or DM	No call to action on posts	End every post with: Comment or DM "CATALOGUE"
Views don't become followers	IG profile 38/100; no highlights, no proof	Fix the profile first (Ready-to-paste text)

Hooks: before and after

Scored with hookscore.py (0-100). Under 50 = WEAK, it won't stop anyone.

Current hooks (all WEAK):

Current hook	Score	Why it fails
Trusted in 200+ Hospitals	48	No stakes; claim not proven
Precision You Can Trust	48	Every brand says this
Precision in Every Pick. Quality in Every Instrument.	42	Slogan, nothing specific
Curved: Better for deeper areas and a clear line of sight	39	Good idea, but no tension
Your Trusted Surgical Instruments Manufacturing Partner	38	Point comes last
why are you swiping?	35	Says nothing about DSS

New hooks (say it on camera + show it as text):

New hook	Score	On-screen text
Distributors, 3 questions to ask before you order forceps from Sialkot.	83	3 QUESTIONS BEFORE YOU ORDER
Made in Sialkot doesn't mean cheap. Here's our ISO 13485 certificate.	79	SIALKOT ≠ CHEAP

New hook	Score	On-screen text
Nobody tells distributors this: a cheap forceps you replace twice a year costs more.	79	CHEAP COSTS MORE
"Can you send your ISO 13485 certificate?" Every distributor should ask us this first.	79	ASK FOR THIS FIRST
Stop buying surgical instruments off a price list. Ask for the ISO certificate first.	78	NOT THE PRICE LIST
Dental distributors, check these 3 things before you order forceps.	76	CHECK THESE 3
Straight scissors stop at the cavity wall. These curved ones don't.	62	CURVED vs STRAIGHT

All use only facts from voice.md. Use /ig-reel to turn any of these into a full script.

Hashtags and search keywords

- **Keywords matter more than hashtags.** Search reads captions, pin titles and bios.
- **Instagram allows max 5 hashtags** per post. They are labels, not a reach boost.
- Keywords below are not checked against search-volume data.

Search keywords (write them as normal words in captions, pin titles, bios):

Type	Keywords
Company	surgical instruments manufacturer · dental instruments manufacturer · Sialkot surgical instruments · surgical instruments Pakistan
Buyer	surgical instruments wholesale · dental instruments distributor · OEM surgical instruments · private label dental instruments
Proof	ISO 13485 certified · CE marked · German stainless steel
Product (use only what you make)	Mayo scissors · Metzenbaum scissors · needle holder · tissue forceps · dental extraction forceps · orthopedic instruments · ENT instruments

Hashtags by platform:

Platform	How many	Use
Instagram	3-5	#surgicalinstruments #dentalinstruments #sialkot #oemmanufacturing + 1 product tag (#needleholder)
TikTok	3-5	#surgicalinstruments #dentaltools #howitsmade #madeinpakistan + 1 product tag
Facebook	1-3	#surgicalinstruments #dentalinstruments
Pinterest	0	No hashtags. Product name in the pin title, keywords in the description

Avoid: generic tags like #medical #health #quality #precision. Too broad; buyers don't search them.

Ready-to-paste text

All checked with ig-human: no AI tells. None mention FDA, prices, MOQ or client names.

Where	Text
IG name field (26/30)	DSS | Surgical Instruments
IG highlights	Catalogue · Certificates · Factory · OEM · Shipping
IG link	wa.me/923293945343?text=CATALOGUE
TikTok bio (75/80)	Dental and surgical instruments, made in Sialkot. ISO 13485:2016, CE, UKCA.
Facebook bio (139)	We make dental and surgical instruments in Sialkot from German stainless steel. ISO 13485:2016, CE, UKCA. WhatsApp "CATALOGUE" for our PDF.
Pinterest boards	Dental Instruments · Surgical Scissors · Forceps & Needle Holders · Orthopedic Instruments · ENT Instruments · Neurosurgery Instruments · OEM & Private Label Instruments · How Surgical Instruments Are Made

Instagram bio (149/150):

```
We make dental and surgical instruments in Sialkot, in German stainless
steel, for clinics and distributors.
ISO 13485:2016, CE, UKCA.
DM "CATALOGUE"
```

Pinterest bio (399/500):

```
We make dental and surgical instruments in Sialkot, Pakistan, from German
stainless steel. ISO 13485:2016, CE, UKCA. Our range covers dental, general
surgery, ENT, orthopedic and neuro, and we'll make OEM and private label runs
to your spec. We ship to distributors and clinics in the UK, UAE, Nigeria,
Bangladesh, the USA and beyond. Want the catalogue? WhatsApp us "CATALOGUE"
on +92 329 3945343.
```

Action plan

#	Task	Account	When	Status
1	Decide on the Texas address; use one location	IG, FB, Pinterest	Today	Not started
2	Paste the new bios and IG name field	All	Today	Not started
3	IG WhatsApp link + contact button	IG	Today	Not started
4	Confirm or remove "200+ Hospitals"	FB	Today	Not started
5	Check if the top 3 reels were boosted	FB	This week	Not started
6	Create 5 highlights	IG	This week	Not started
7	Split the "Social" board	Pinterest	This week	Not started
8	Shoot 3 pinned posts: certificates, catalogue/OEM, factory intro	IG	This month	Not started
9	Test 3 reels: instrument in use, person on camera	IG, FB	This month	Not started
10	One story a day	IG	Daily	Not started

Data still needed

Account	What	Why
Facebook	Top 3 reels: boosted?, reach, follows	Content or ad spend?
Instagram	Views and dates per reel	IG not audited yet
TikTok	Watch time, retention graph	Where viewers drop off
Pinterest	Outbound clicks and saves per pin	Real share of the 40.2K

Based on screenshots only; no dates were visible.
